Subject Index to Volume 53

Acromegaly
  lipoprotein(a) in 313
  octreotide LAR versus lanreotide SR in 577
  optimal dosage interval for somatostatin analogues 719
  persistent, and pregnancy (Letter) 262
  radiotherapy and GH levels 321
  sweat secretion rates in 601
  vascular reactivity in 445
ACTH
  actions in familial glucocorticoid deficiency 423
  cortisol relationships in insulin tolerance test 301
  ectopic precursor from pancreatic tumour (Letter) 539
  low dose test in pre-clinical Addison's disease 107
  novel mutations of receptor gene (Case report) 389
  see also Synacthen tests
Addison's disease
  autoimmune, genetics of (Review) 403
  low dose ACTH test in 107
Adrenal adenomas
  MRI in diagnosis (Case report) 751
Adrenal cortex
  developmental changes in steroidogenic enzymes 739
Adrenal function
  genetics of adrenal failure (Review) 403
  hyperandrogenism after precocious pubarche 523
  low dose ACTH test in Addison's disease 107
  novel mutations of ACTH receptor gene (Case report) 389
  response to ACTH in obesity 431
Adrenal hypoplasia congenita
  genetics of 409
  prolonged activation of HPG axis (Case report) 127
  X-linked, new mutations and long-term follow-up 249
Adrenocortical carcinoma
  recurrence after laparoscopy 243
Adrenoleukodystrophy
  genetics of 408
Ageing
  beta cell function and 569
  related changes in serum sex hormones, SHBG and IGF-I in men 689
  serum inhibin B levels in males 141 (Commentary) 139
  urine calcium-sodium relationship in 235
  see also Elderly subjects
Aldosterone
  concurrent secretion with cortisol in adrenal adenoma (Case report) 751
Amenorrhoea, hypothalamic
  cardiovascular risk markers in 359
Androgens
  penile erection and 517
Androstenedione
  testosterone:androstenedione ratio in male undermasculinization 697
Anti-thyroid drugs
  pretreatment in Graves' disease (Commentary) 1
Arterial reactivity
  in hypercalcaemia 229
Autoimmune diseases
  genetics of autoimmune Addison's disease (Review) 403
  multireactive, and type 1 diabetes mellitus (Case report) 649
  postpartum thyroid dysfunction 21
  reverse transcriptase activity in Graves' disease 155
  succinate dehydrogenase flavoprotein autoantibodies 291
  thyroid, in Cushing's disease 13

Beta cell
  function in ageing 569
Birth weight
  low, adrenal hyperandrogenism and 523
  low, and risk of thyroid disease 171
Body composition
  effects of DHEA replacement 561
  of elderly subjects with GHD 551
Body proportions
  GH therapy and children with short stature 675 (Commentary) 665
Bone
  BMD in Turner's syndrome (Letter) 761
  BMD and vitamin D receptor gene in males 93
  effects of DHEA replacement on BMD 561
  fibrous dysplasia in McCune Albright syndrome 621
Brain tumours
  GHD after cranial radiotherapy 191
Breast-feeding
  propylthiouracil and thyroid function 177
Bromocriptine
  cutaneous pseudolymphoma associated with therapy (Letter) 656
Bulimia nervosa
  TNF-α in 383

© 2000 Blackwell Science Ltd

Cabergoline
medical treatment of prolactinoma 53 (Commentary) 549
recovery of GH secretion after treatment of macroprolactinomas 595
CAH
CYP21 analysis in Italy 117
DNA diagnosis of 419
genetics of 410
Calcium
calcium-sensing receptor mutation (Case report) 393
urine calcium-sodium relationship 235
Carbohydrates
effects of GH on metabolism 453
Carcinoid tumour
complete regression after octreotide treatment (Case report) 757
(Commentary) 663
Cardiac function
relation of IGF-1 and GH 61
Cardiomyopathy, dilated
somatotrophic system in 61
Cardiovascular disease
risk markers in hypothalamic amenorrhoea 359
Catecholamine
modulation by melatonin 367
Chernobyl
RET/PTC-1 variant in thyroid carcinoma (Case report) 131
Children
assessment of transitional period of GHD (Commentary) 545
GHD after cranial radiotherapy 191
gigantism, GH and optic glioma (Case report) 535
HGF/SF and cMET in papillary thyroid cancer 635
HPG axis in X-linked CAH (Case report) 127
IGF-1 and IGFBP-1 in idiopathic short stature 683
short stature, GH therapy and body proportions 675
(Commentary) 665
thyroid hormone levels during GH therapy 183
urinary GH and IGF-1 in 69
Cholesterol
effects of GH on metabolism 453
Cholinergic system
modulation of GH in uraemia 587
Chronic fatigue syndrome
pituitary function and GH secretion in 99
Contraception, male
effects of norethisterone enanthate 351
testosterone undecanoate and oral levonorgestrel 43
Corticotropin resistance syndromes
genetics of 412
Cortisol
concurrent secretion with aldosterone in adrenal adenoma (Case report) 751
Cortisol response
ACTH relationships in insulin tolerance test 301
see also Synacthen tests
Cushing's disease/syndrome
ectopic ACTH precursor from pancreatic tumour (Letter) 539
polycystic ovaries and 493
thyroid autoimmunity in 13
Cyclins
expression in pituitary gland 337

Dementia
subclinical hyperthyroidism and 733
DHEA
effects of replacement on BMD and body composition 561
Diabetes
gestational, and polycystic ovarian syndrome 501
insulin-resistant, calcium-sensing receptor mutation (Case report) 393
type 1, and multireactive autoimmune diseases (Case report) 649
Dialysis, peritoneal
cholinergic modulation of GH in uraemia 587
Dopamine agonists
medical treatment of prolactinomas 53
optic chiasmal herniation and (Case report) 529

Elderly subjects
effects of DHEA replacement on BMD and body composition 561
GH therapy for GHD in adults 281 (Commentary) 279
with hypothalamic-pituitary disease and GHD 551
self-administered screener for hypogonadism in men 703
Endothelial dysfunction
in acromegaly 445
Epidemiology
goitre prevalence and iodine status 479
Erectile dysfunction
androgens and 517
Erratum 661

Fatigue see Chronic fatigue syndrome
Fibrous dysplasia
of bone, in McCune Albright syndrome 621

Genetics
activating TSH receptor mutations 461
of adrenal failure (Review) 403
adrenal hypoplasia congenita 409
autoimmune Addison's disease (Review) 403
calcium-sensing receptor mutation (Case report) 393
chromosome 11p15 alterations in NICTH 213
clinical correlates in MEN-1 205
CYP21 analysis in Italy 117
DNA polymorphisms in CYP21 gene 419
HPG axis in X-linked CAH (Case report) 127
loss of heterozygosity in sporadic parathyroid tumours 85
new mutations in X-linked CAH 249
novel mutations of ACTH receptor gene (Case report) 389
pituitary-gonadal axis and LHR activating mutations 609
placental GH and IGF-I in [U]pit-1[u] deficiency (Case report) 645
RET/PTC-1 variant in thyroid carcinoma (Case report) 131
thyroid receptors in human fetal brain 469
vitamin D receptor gene and BMD in males 93
vitamin D receptors and parathyroid tumorigenesis 373
GH
cholinergic modulation of response in uraemia 587
in chronic fatigue syndrome 99
effect on BMD in Turner's syndrome (Letter) 761
effects on lipid and carbohydrate metabolism 453
IGF-I, IGFBP-3 and leptin during therapy 329
in Langerhans' cell histiocytosis 509
lipoprotein(a) and, in acromegaly 313
optic glioma, gigantism and (Case report) 535
placental, in [U]pit-1[u] deficiency (Case report) 645
radiotherapy and, in acromegaly 321
recovery of secretion after cabergoline therapy 595
relation to IGF-1 and cardiac function 61
sweat secretion rates in GH disorders 601
therapy for GHD in elderly adults 281 (Commentary) 279
thyroid hormone levels during therapy for GHD 183
treatment, and body proportions of children with short stature 675 (Commentary) 665
urinary excretion in children 69
GHD
after cranial radiotherapy 191
assessment of transitional period (Commentary) 545
combined octreotide-GHRH test in diagnosis 667
in the elderly 551
GH therapy in elderly adults 281 (Commentary) 279
sweat secretion rates in 601
thyroid hormone levels during GH therapy 183
GHRH
cholinergic modulation in uraemia 587
combined octreotide-GHRH test in diagnosis of GHD 667
Gigantism
optic glioma, GH and (Case report) 535
Glucocorticoid deficiency, familial
tall stature in 423
Glucose tolerance
beta cell function in ageing 569
Goitre
nontoxic multinodular, management 5 (Commentary) 3
prevalence, and iodine status 479
Goitrogenesis
borderline iodine sufficiency during pregnancy 725
Graves' disease
anti-thyroid drug therapy before radioiodine (Commentary) 1
postpartum 270
pregnancy and 268
propylthiouracil and thyroid function 177
reverse transcriptase activity 155
Growth retardation, intrauterine
GH treatment of short stature 675 (Commentary) 665

Hepatocyte growth factor/scatter factor (HGF/SF)
in childhood thyroid cancer 635
HGF/SF receptor (cMET)
in childhood thyroid cancer 635
Histiocytosis
Langerhans' cell 509
Human chorionic gonadotrophin (HCG)
exogenous, impact on corpus luteum 345
thyroid disease and 267
21-Hydroxylase deficiency
genetics of 410
Hyperandrogenism, adrenal
after precocious pubarche 523
Hypercalcaemia
calcium-sensing receptor mutation (Case report) 393
parathyroidectomy and arterial reactivity 229
Hyperthyroidism
fetal and neonatal 270
muscle mass and function in (Letter) 540
pregnancy and 268
subclinical, and risk of dementia 733
Hypoadrenalism
secondary, diagnostic tests 221 (Letter) 759
Hypoglycaemia
non-islet cell tumour (NICTH) 213

see also Insulin tolerance tests
Hypogonadism
reversible hypogonadotrophic, in thalassaemia 33
self-administered screener for ageing men 703
Hypopituitarism
effects of GH on lipid and carbohydrate metabolism 453
GH therapy in elderly adults 281 (Commentary) 279
vasopressin and thirst in 77
Hypothalamic-pituitary disease
with GHD in the elderly 551
Hypothalamus-pituitary-adrenal (HPA) axis
assessment after pituitary surgery 431
metyrapone test in post-surgery assessment 309
reference values for assessment 199
Hypothalamus-pituitary-gonadal axis
in adrenal hypoplasia congenita (Case report) 127
Hypothyroidism
congenital 271
pregnancy and 270
Hypothyroxinaemia
borderline iodine sufficiency during pregnancy 725

IGF
age-related changes in IGF-I in men 689
alterations in NICTH 213
IGF-I and IGFBP-1 in idiopathic short stature 683
IGF-I, IGFBP-3 and leptin during GH therapy 329
placental IGF-I in [U]pit-1[u] deficiency (Case report) 645
relation of IGF-I and GH in cardiac function 61
urinary excretion of IGF-I in children 69
IGFBP
IGF-I and IGFBP-1 in idiopathic short stature 683
IGF-I, IGFBP-3 and leptin during GH therapy 329
Immunohistochemistry
developmental changes in steroidogenic enzymes in adrenal cortex 739
Immunology
of normal pregnancy 265
Immunostaining
thyroperoxidase, solitary cold thyroid nodule 161
Inhibins
inhibin B levels in elderly men 141 (Commentary) 139
post-partum regulation of inhibins A and B 149
Insulin
resistance, and calcium-sensing receptor mutation (Case report) 393
sensitivity, and beta cell function in ageing 569
Insulin tolerance tests
ACTH and cortisol relationships in 301
assessment of HPA axis after pituitary surgery 431
in post-pituitary surgery assessment 309
reference values 199
Iodine
borderline sufficiency, impact of pregnancy on thyroid axis 725
status, and goitre prevalence 479
treatment in Graves' disease (Commentary) 1
Iron
transfusional overload, and hypogonadism 33

Kearns-Sayre syndrome
genetics of 412

Langerhans' cell histiocytosis
multisystem, growth and endocrine disorders in 509
Lanreotide
octreotide LAR versus lanreotide SR in acromegaly 577
optimal dosage interval in acromegaly 719
Laparoscopy
recurrence of adrenocortical carcinoma and 243
Leptin
IGF-I, IGFBP-3 and, during GH therapy 329
Levonorgestrel
oral, in male contraception 43
Lipids
effects of GH on metabolism 453
profiles in elderly subjects with GHD 551
Lipoatrophy
calcium-sensing receptor mutation (Case report) 393
Lipoid congenital adrenal hyperplasia
genetics of 411
Lipoprotein(a)
in acromegaly 313
Luteinizing hormone
receptor gene mutations, and pituitary-gonadal axis 609

McCune Albright syndrome
parathyroid hormone-related protein in 621
Macroprolactinoma
optic chiasmal herniation, dopamine agonists and (Case report) 529
recovery of GH secretion after cabergoline therapy 595
Magnesium
urine calcium-sodium relationship and 235
Magnetization transfer technique
assessment of pituitary adenomas (Letter) 399
Males
ageing, inhibin B levels in 141 (Commentary) 139
age-related changes in serum sex hormones, IGF-I and SHBG 689
androgens and penile erection 517

contraception, effects of norethisterone enanthate 351
contraception, testosterone undecanoate and oral levonorgestrel 43
effects of DHEA replacement on BMD and body composition 561
reversible hypogonadotrophic hypogonadism in thalassaemia 33
self-administered screener for hypogonadism 703
testosterone:androstenedione ratio in undermasculinization 697
vitamin D receptor gene and BMD in 93
Melatonin
modulation of catecholamine levels 367
Men see Males
Menstrual cycle
cardiovascular risk markers in hypothalamic amenorrhoea 359
impact of exogenous HCG on corpus luteum 345
Metyrapone test
in post-pituitary surgery assessment 309
for secondary hypoadrenalism 221 (Letter) 759
MRI
in diagnosis of adrenal adenomas (Case report) 751
Multiple endocrine neoplasia (MEN)
type 1, clinical and genetic correlates in 205
Muscle mass and function
in hyperthyroidism (Letter) 540

Norethisterone enanthate
effects in healthy men 351

Obesity
adrenal response to ACTH in 431
Octreotide
combined octreotide-GHRH test in diagnosis of GHD 667
complete regression of carcinoid tumour after treatment (Case report) 757 (Commentary) 663
octreotide LAR versus lanreotide SR in acromegaly 577
optimal dosage interval in acromegaly 719
Oestrogen replacement
BMD in Turner's syndrome (Letter) 761
modulation of catecholamine by melatonin 367
Ophthalmopathy, thyroid-associated
succinate dehydrogenase flavoprotein autoantibodies 291
Optic chiasmal herniation
dopamine agonists and (Case report) 529
Optic glioma
gigantism, GH and (Case report) 535
Ovaries
polycystic, in Cushing's syndrome 493
see also Polycystic ovarian syndrome

Pancreatic tumour
ACTH precursor production (Letter) 539
Parathyroid
influence of thyroid pathology on gammagraphy (Letter) 655
Parathyroidectomy
arterial reactivity in hypercalcaemia 229
Parathyroid hormone-related protein
in McCune Albright syndrome 621
Parathyroid tumours
adenomas, and vitamin D receptor expression 373
sporadic, loss of heterozygosity 85
Penile erection
androgens and 517
Pituitary
cyclin expression in 337
Pituitary adenomas
cyclin expression in 337
magnetization transfer technique (Letter) 399
non-functioning, and radiotherapy 713
Pituitary disease
ACTH and cortisol relationships in insulin tolerance test 301
metyrapone test in post-surgery assessment 309
posterior ectopia, vasopressin and thirst in 77
Pituitary function
assessment of HPA axis after pituitary surgery 431
in chronic fatigue syndrome 99
potential of norethisterone enanthate for male contraception 351
Pituitary-gonadal axis
in patients with LHR activating mutations 609
Placenta
GH and IGF-I in [U]pit-1[u] deficiency (Case report) 645
Polycystic ovarian syndrome
in Cushing's syndrome 493
gestational diabetes and 501
Post-partum period
regulation of inhibins A and B 149
Post-partum thyroid dysfunction
prevalence and characteristics in Brazil 21
Review 272
in women with normal function during pregnancy 487
Pregnancy
immunology of 265
impact of borderline iodine sufficiency 725
in persistent acromegaly (Letter) 262
placental GH and IGF-I in [U]pit-1[u] deficiency (Case report) 645
polycystic ovarian syndrome and gestational diabetes 501

post-partum thyroid dysfunction and 21, 487
thyroid disease in relation to (Review) 265
thyroid function and 266
thyroid receptors in human fetal brain 469
Progesterone
levels after topical application 615
Prolactinoma
cabergoline and quinagolide therapy 53 (Commentary) 549
see also Macroprolactinoma
Propylthiouracil
breast-feeding and thyroid function 177
Pseudolymphoma, cutaneous
associated with bromocriptine therapy (Letter) 656
Pubarche, precocious
adrenal hyperandrogenism after 523

Quality of life
of elderly subjects with GHD 551
Quinagolide
medical treatment of prolactinoma 53 (Commentary) 549

Radioiodine
treatment in Graves' disease (Commentary) 1
Radiotherapy
in acromegaly 321
cranial, and GHD in children 191
postoperative, and pituitary adenomas 713
Reverse transcriptase
activity in Graves' disease 155
Rotterdam study
subclinical hyperthyroidism and risk of dementia 733

Scintigraphy
influence of thyroid pathology on parathyroid gammagraphy (Letter) 655
Screening
hypogonadism in ageing men 703
Sertoli cell
function in elderly men 141 (Commentary) 139
Sex-hormone binding globulin (SHBG)
age-related changes in men 689
Sex hormones
age-related changes in men 689
see also specific hormones
Short stature
GH therapy and body proportions 675 (Commentary) 665
idiopathic, serum levels of IGF-I and IGFBP-1 683
Sodium
urine calcium-sodium relationship 235
Somatostatin analogues
optimal dosage interval in acromegaly 719
see also specific agents
Steroidogenic enzymes
developmental changes in adrenal cortex 739
Succinate dehydrogenase
flavoprotein autoantibodies 291

adrenal responsiveness in obesity 431
assessment of HPA axis after pituitary surgery 431
diagnosis of secondary hypoadrenalism 221 (Letter) 759
low dose 199, 221 (Letter) 759
reference values for assessment of HPA axis 199

Tall stature
in familial glucocorticoid deficiency 423
Testosterone
penile erection and 517
screening for deficiency in ageing men 703
testosterone:androstenedione ratio in male undermasculinization 697
undecanoate and oral levonorgestrel for male contraception 43
Thalassaemia
reversible hypogonadotrophic hypogonadism in 33
Thirst
in posterior pituitary ectopia and hypopituitarism 77
Thyroid
determinants of volume 629
influence of pathology on parathyroid gammagraphy (Letter) 655
Thyroid carcinoma
HGF/SF and cMET in children 635
RET/PTC-1 variant in (Case report) 131
Thyroid disease
in relation to pregnancy (Review) 265
succinate dehydrogenase flavoprotein autoantibodies 291
Thyroid function
autoimmunity in Cushing's disease 13
goitre prevalence and iodine status 479
hormone levels during GH therapy 183
hormone receptors in fetal brain 469
impact of borderline iodine sufficiency during pregnancy 725
low birth weight and risk of disease 171
post-partum disease (PPTD) 21, 272, 487
pregnancy and 266
propylthiouracil and breast-feeding 177
reverse transcriptase activity in Graves' disease 155

Thyroid nodule
pregnancy and 272
solitary, TPO immunostaining 161
Thyroperoxidase immunostaining
solitary cold thyroid nodule 161
TSH
activating receptor mutations 461
Tumour necrosis factor-α (TNF-α)
in bulimia nervosa 383
Turner syndrome
oestrogens, GH, and BMD (Letter) 761

Ultrasonography
determinants of thyroid volume 629
goitre prevalence and iodine status 479
Uraemia
cholinergic modulation of GH in 587

Vascular reactivity
in acromegaly 445
Vasopressin
in posterior pituitary ectopia and hypopituitarism 77
Vitamin D
receptor gene and BMD in males 93
receptors and parathyroid tumorigenesis 373

Women
cardiovascular risk markers in hypothalamic amenorrhoea 359
effects of DHEA replacement on BMD and body composition 561
HRT and modulation of catecholamine by melatonin 367
impact of borderline iodine sufficiency during pregnancy 725
impact of exogenous HCG on corpus luteum 345
novel mutations of ACTH receptor gene (Case report) 389
placental GH and IGF-I in [U]pit-1[u] deficiency (Case report) 645
polycystic ovarian syndrome and gestational diabetes 501
polycystic ovaries and Cushing's syndrome 493
post-partum regulation of inhibins A and B 149
post-partum thyroid dysfunction 21, 272, 487
pregnancy in persistent acromegaly (Letter) 262
propylthiouracil and breast-feeding 177
thyroid disease in relation to pregnancy (Review) 265
topical application of progesterone 615
